

How to schedule a COVID-19 vaccine*

Go to [Walmart.com/COVIDvaccine](https://www.walmart.com/COVIDvaccine) from your phone or desktop computer

- Click the “Schedule Now” button at the top or scroll down to the blue box that says, “Schedule your COVID-19 vaccine.”
- Sign into your Walmart account or create a new one—all you need is name, email, and password.
- Enter your zip code to find nearby pharmacies offering the vaccine and select your preferred pharmacy.
- Verify your eligibility to receive the COVID-19 vaccine per CDC and state guidelines.
- Select a date and time for your appointment. If you do not see any available times, please check another location or check back again soon.
- Select “Add a patient” and complete the digital patient form.
- Once you’ve finished and reviewed the patient form, select “Book Appointment.”

Add the appointment to your calendar!

Vaccines available during pharmacy hours
